Special Projects: Special projects would include food truck courts, flea markets and other projects which fall outside the scope of the normal building permit process.

Automatic Extinguishing System: This fee is applicable for the installation of kitchen suppression systems, clean agent systems, dry chemical systems protecting existing spray booths and similar type of installations. *A separate permit is required for each system*.

Fire System Acceptance: This fee is applicable for modifications to existing sprinkler systems involving the installation and/or relocation of not more than 20 sprinkler heads. This fee is also applicable to modifications of existing fire alarm systems involving the installation and/or relocation of not more than 10 devices.

Fire Standpipe System: This fee is applicable for standalone standpipe systems. The fee for combination sprinkler/standpipe risers will be covered by the fire sprinkler permit fee. For a combination system an additional fee for the standpipe system will not be required.

Fire Pump: This fee is applicable in addition to the fee for the fire sprinkler or standpipe system.

High-Piled Storage: Installation of racks and other storage defined as high-piled combustible storage in the fire code.

Paint-Powder Coating Booth: Installation of spray and powder coating equipment utilizing combustible and/or flammable materials.
