

TRAVIS COUNTY EMERGENCY SERVICES DISTRICT 2

Pflugerville Fire Department Risk Reduction Division

203 E. Pecan Street, Pflugerville, TX 78660
www.PflugervilleFire.org (512) 251-2801

March 12, 2026

Effective January 1, 2026, the Travis County Fire Marshal's Office (TCFMO) will begin conducting reviews for construction projects located within the **unincorporated portions of ESD2**.

This will NOT apply to projects located within the City of Pflugerville. Projects in the City of Pflugerville will not require a joint review from TCFMO.

Existing Projects Submitted Prior to January 1, 2026

Projects submitted to ESD2 **before January 1, 2026** will be grandfathered and **will not require joint review**. (If a site plan was submitted prior to January 1, the site plan, building plans, and all system plans will continue to be reviewed solely by our ESD).

New Projects Submitted After January 1, 2026

For projects located in the unincorporated portion of ESD2, TCFMO and ESD2 will conduct a joint plan review and perform field inspections.

The following requirements apply:

- Separate plan submittals must be made to both TCFMO and ESD2.
- Separate permit fees will be required for each jurisdiction.
- Each jurisdiction will conduct its own plan review and issue separate plan approvals.
- Each jurisdiction will perform its own field inspections.

Our jurisdiction will make every effort to coordinate field inspections with TCFMO to minimize the burden on contractors.

Occupancy approvals will be issued separately by each jurisdiction. Where possible, our office will coordinate with TCFMO to prevent situations in which one jurisdiction issues approval and the other does not.
